American Family Magazine Ad Rates 2011

Be Part of a Family Who Shares Ad Costs

Our process is simple. Once your product or service is approved, you send us your ad information and we send you visitors. We offer two options. We split the cost of each ad space four ways, displaying each partner's ad randomly. This makes the spaces affordable for everyone while allowing AFM enough revenue to continue delivering great content.

Focus on Exclusivity

Being part of the family and sharing ad space is cost effective for most anyone. However, if you wish to claim exclusive rights to an ad space that is not currently shared, you may do so. You simply pay for each of the four shares and you will receive exclusivity for that space. You may display one static ad or have up to four different ads display randomly.

Join the American Family of Business Partners today and start your campaign now.
